

STOCKBRIDGE 1983

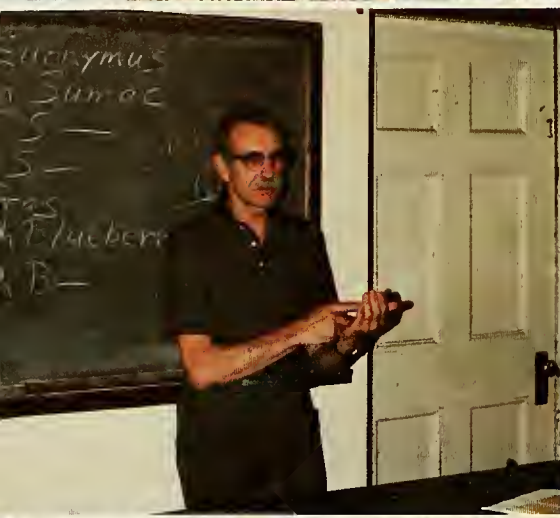

Digitized by the Internet Archive
in 2010 with funding from
Boston Library Consortium Member Libraries

<http://www.archive.org/details/stosag1983stoc>

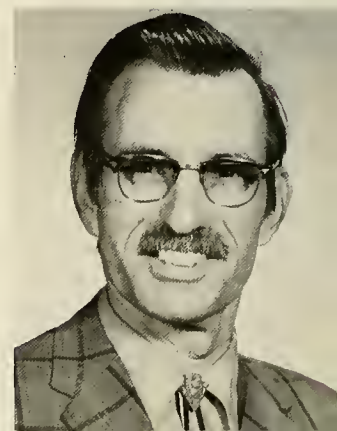

*STOCKBRIDGE
SCHOOL OF
AGRICULTURE*

*AMHERST
MASSACHUSETTS*

It is quite appropriate that a yearbook dedication be presented to a person who exemplifies "dedication". A good professor is one who attracts the interest of the students to a subject simply by his own attitude towards it. It is obvious Harold Mosher is proud to be a professor. With this dedication the Stockbridge class of 1983 would like to thank Hal for his twenty-five year contribution to the Stockbridge School of Agriculture.

*SOCIAL FRANITY OF
STOCKBRIDGE*

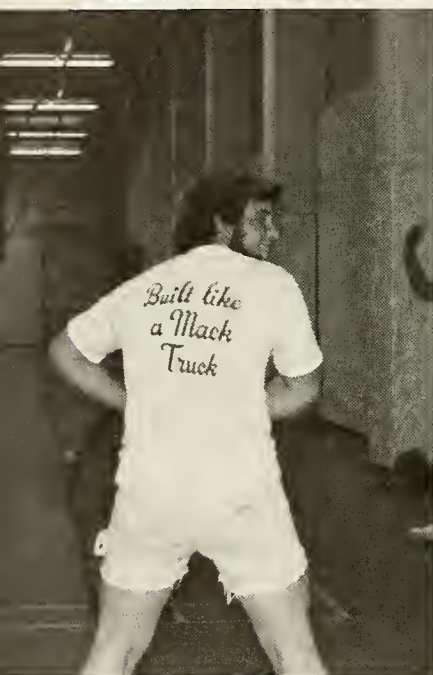

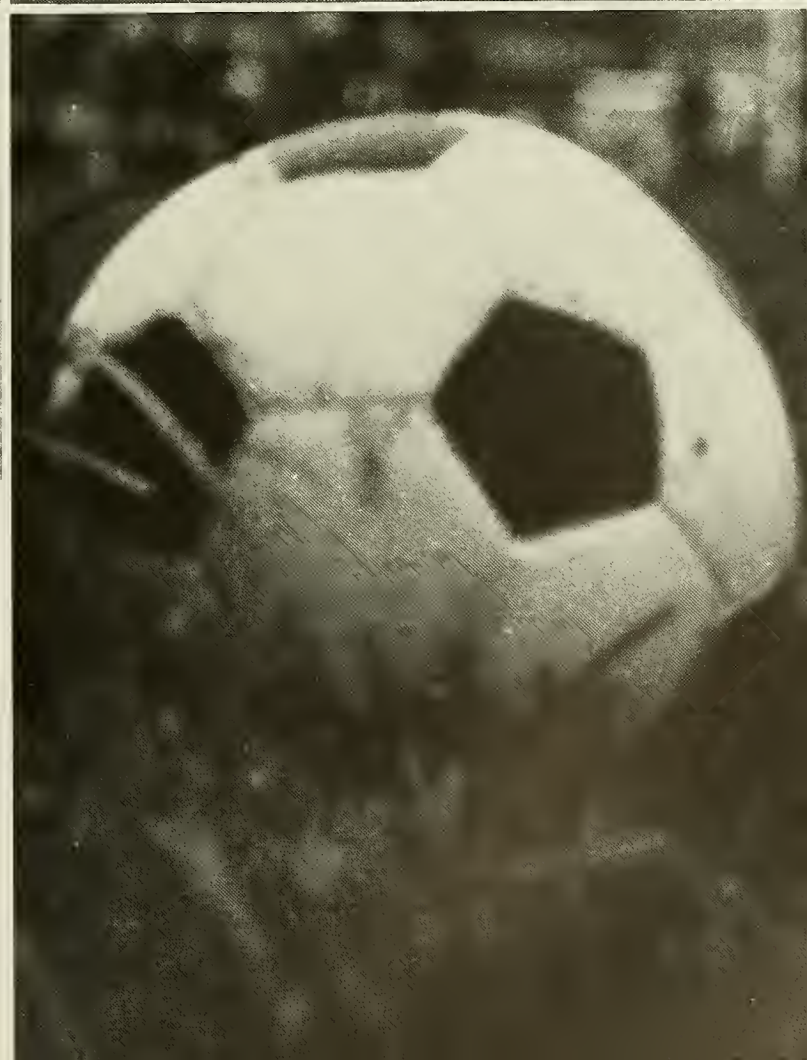

Just over six years ago I first heard of Stockbridge from a recent graduate. This alumni was also a member of ATG. He aroused my interest in both Stockbridge and ATG.

Sometimes members learn of ATG from their fathers, in fact one of us has three generations of ATG in his family, starting with his grandfather in 1936, his father in 1959, and now he carries on in 1983. But we are the exception, most of Stockbridge freshman never knew ATG existed until they received our flyer just before orientation. And then only a few men take the challenge and decide to join the house. But for most all of us who join, we feel it was one of the best of lifes decisions. For ATG is not just a housing option, the time spent together in the brotherhood is often the basis of many lifelong friendships.

PRESIDENTIAL GARDENS

Gordon King

Professor Gordon King was born in Glen Ridge, New Jersey. He studied at North Carolina State and received his Bachelor Degree in Forestry at Michigan State. With this background he went to work for the Firestone Rubber Company in Liberia, West Africa. Four years later in 1945, Professor King returned to this country to become the Assistant Arborist of Lansing, Michigan.

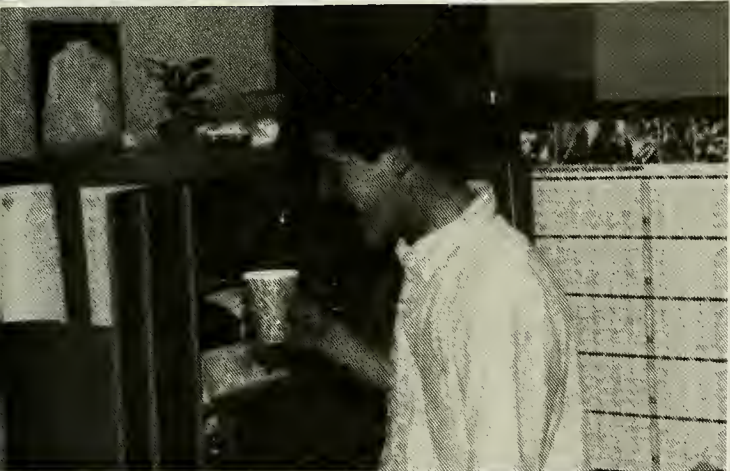

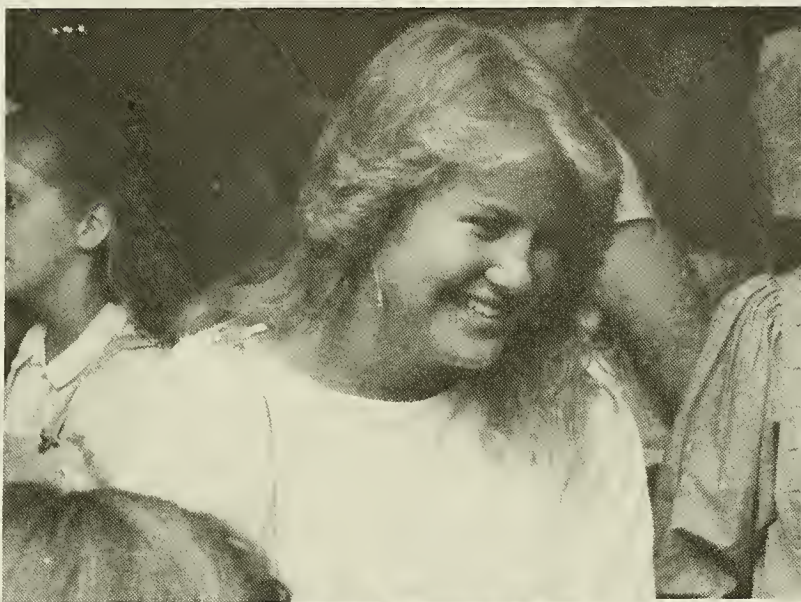

In 1955 he joined the ranks of Stockbridge as Assistant Professor of Arboriculture. By 1956 he received his Master Degree from U Mass and attained full professorship. Since coming to Stockbridge, Professor King has been closely involved with students and alumni. He served six years as Advisor for the Student Senate. The bulletin board outside his office is filled with notices of seminars, information about training sessions and certification exams and letters from people throughout the country telling about job opportunities in the field for both placement students and graduates.

He has written many articles which appeared in professional publications and is a member of the Interna-

tional Shade Tree Conference and the New England Park Association. He also attends many regional, national, and international tree meetings.

In 1971 he was sent for thirty days to Liberia by the Peace Corps to evaluate their work. In this country he is presently working with OSHA, Occupational Safety and Health Association, in reviewing safety standards for the park and forest service, and the chainsaw, telephone, and utility industries. They meet twice a year to analyse why accidents happen in these fields and how they can be prevented through regulation and education. Professor King would like to see more and better education of the workers than more government regulation, but admits that both are necessary.

When Professor King is not teaching, he relaxes on his 85 acre farm in Leverett where he raises beef, sheep, christmas trees, and runs a bait shop. He has four grandchildren he takes trout fishing in one of the three brooks on his farm.

STOCKBRIDGE HALL OFFICE

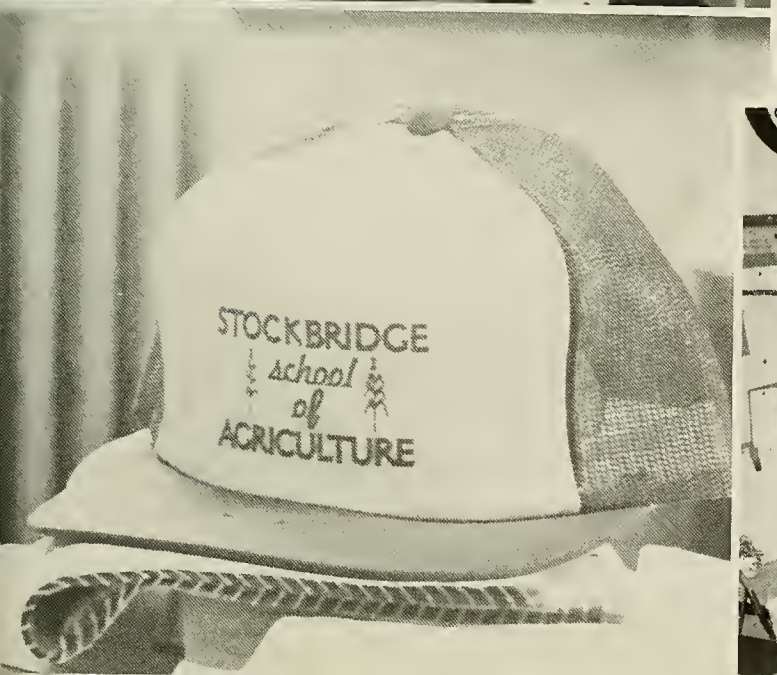

STOCKBRIDGE SENATE OFFICE

The Stockbridge Student Senate recently moved their office from 432 to 411 Student Union Building this has proved to be quite benifical. It has reunited the various organizations which had previously worked out of the Senate office, with their sister organization STOSAG. Sometimes this had made life quite hectic but the resulting increase in communication has made the move worth while.

The best thing about this move is that it has allowed all organization to have better access to our secretary, friend and advisor Joan Damon. It is with much Thanks and sincere appreciation that we dedicate this page to Joanie.

Thank you Joanie

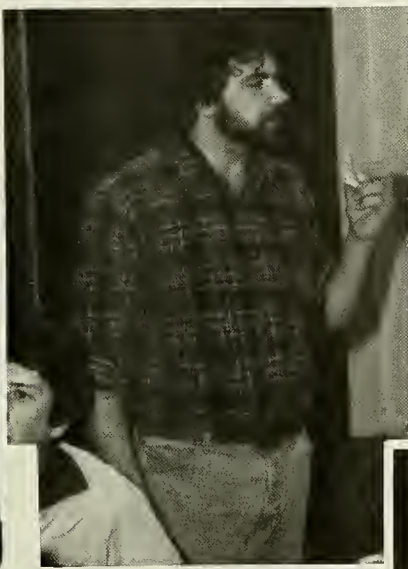

In 1862, perhaps the most turbulent time in U.S. history, Abraham Lincoln signed into law The Morrill Act establishing a system of land grant colleges. I take great pride in the fact that Mass Aggie, now Stockbridge School of Agriculture, and foundation of the UMASS system, was one of these land grant colleges. We here at Stockbridge are priviledged to share in such a rich tradition. May we, with Gods help, leave with knowledge gained, and, body, heart and soul committed.

*Miachael Boczanowski- Senate -President
Steven Gregory- Senate Vice President
Patrick Balfe- Senate Treasurer
Joan Damon - Senate Office Secretary
Holly Colt- Senate exective Secretary*

*yours in agriculture,
Michael A. Boczanowski*

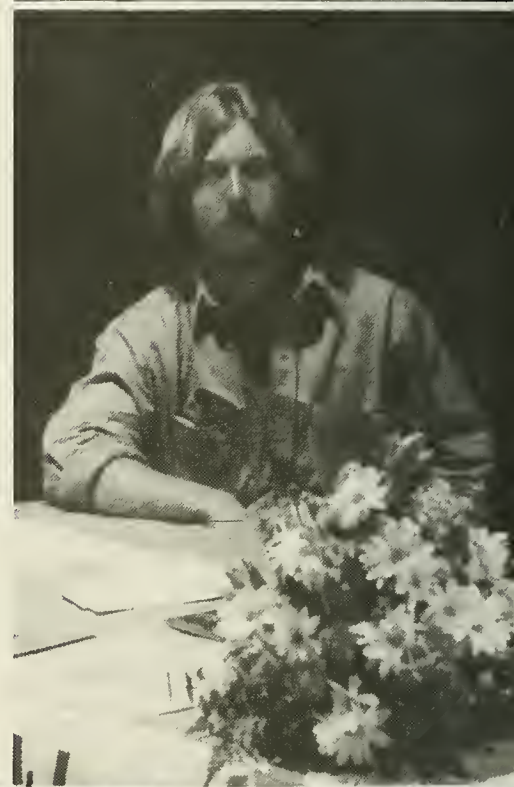

SHORTHORN

Our Thanks to this years Shorthorn staff, John Carroll, Doug Crossman, and Editor Chris Legros. Chris and his staff, have searched high and low for information to get the students of Stockbridge. We take our hats off to them and take great pride in their job well done.

Thank you Shorthorn Staff.

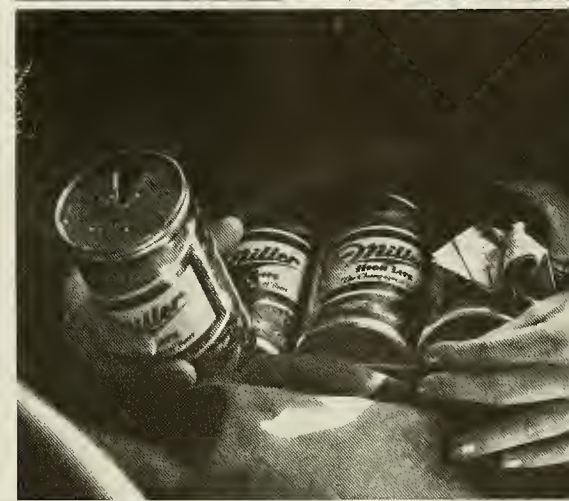

STOSO

The social life at Stockbridge has been one of the brightest spots of the year Thanks to STOSO. Events like the Wine and Cheese Party, Fall Picnic, Halloween Party, and the Annual Holly Jolly helped to move the fall semester right along, with a little relaxation when our Foundry Fathers initiated the Stockbridge Social Organization they realized that a Party is a good way to combat the pressures of the tough academics at Stockbridge. Second semester should prove to be even a greater success with the Progress Banquet and the Spring Picnic. A special Thanks to the Brothers of ATG for their many fine Happy Hours.

Thank you STOSO

STOSAG STAFF

Thanks to the persistant hardwork and diligence of these dedicated Stockbridge students, the rest of us can enjoy our very own yearbook.

As we lose ourselves in memories captured throughout these pages and recognize our fellow friends and classmates, may we pause and applaude the organization and corporation of the yearbook squad of 1983.

Brian McVey

I wish to show appreciation to the following members of the yearbook squad;

Lynn Bonnevie Zayka- Yearbook Editor

Kathy Lamberti - Assistant Editor

James Conant- Photo Editor

Peter Ionnitte- Layout

The 1983 STOSAG staff would like to express their appreciation to Professor Edward S. Pira for his undoubted efforts in assisting in the production of the 1983 yearbook.

Professor Pira is a thoughtful and highly respected man both at school and at home. He has not only gained the respect from his associates but also from his students. We have found a friend in him and we want to Thank him for contributing to our very special years at Stockbridge.

STOCKBRIDGE CLASS OFFICERS

In the past two years I have had a small part in the coming together of a well organized, highly professional and dedicated group of people. The class of 1983 has shown a great deal of enthusiasm and support for Stockbridge as well as the agricultural industry. It is my feeling that in this fast changing world the class of 1983 will leave a distinctive mark in the ever changing field of agriculture.

Thom Featherstone

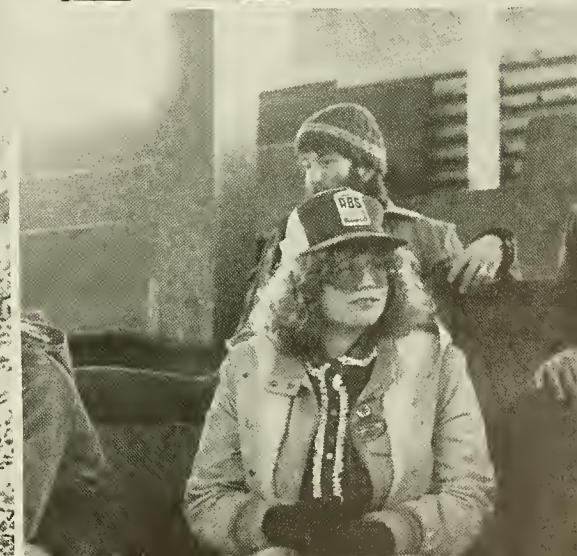

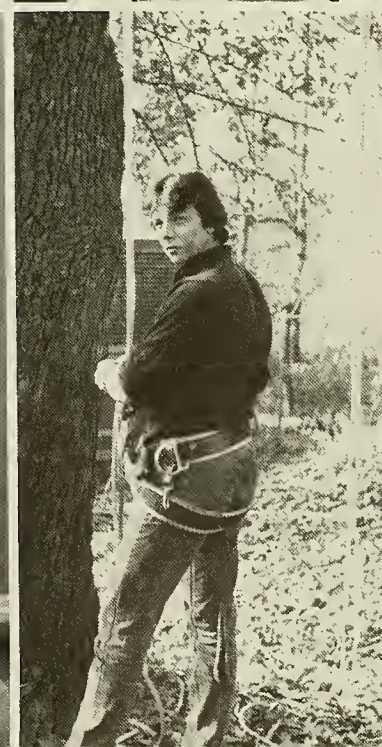

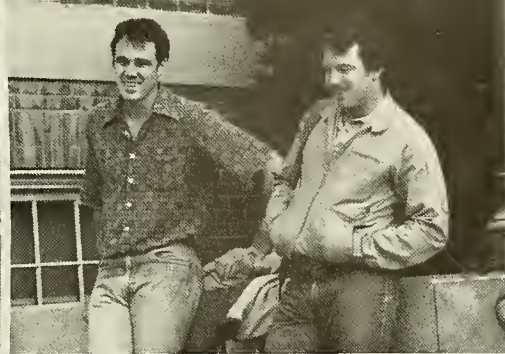

*Thom Featherstone
-1983-*

*Bill Simard
-1981-1982-*

I wish to extend a large Thank you to my entire crew who stood by me and worked with me to meet those ever persistent deadlines. We ran into some major problems and I had to make some tough decisions, my crew stood by me after I had made them, even though some people thought then and now that I was wrong. So as a result of my outstandish attitude and my cantankerous behavior, I now only have three friends in the whole world Kathy, Wendy, and James.

To Thank Kathy and Wendy who both brought pages home with them over vacation is just not enough. I think of all the times I have yelled at them and made the yearbook production more difficult then it really need be. I am truly grateful to you both.

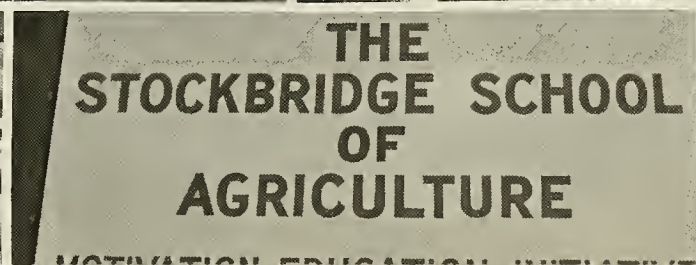

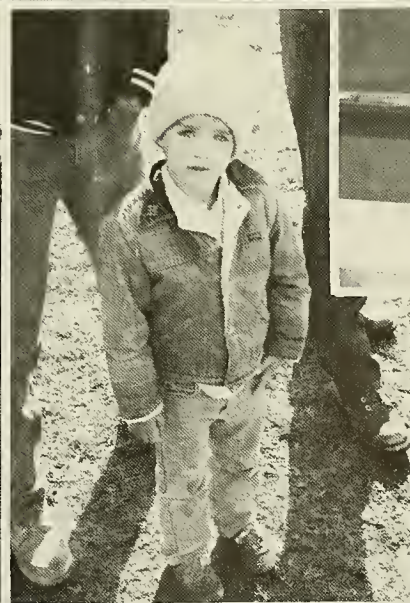

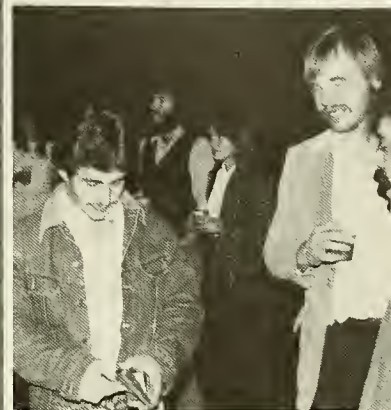

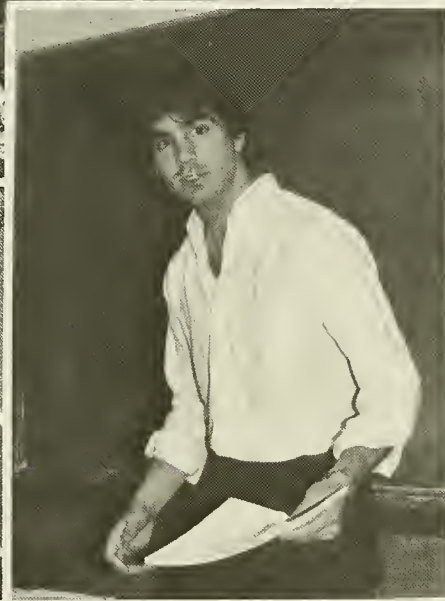

I want to Thank James Conant for his a amazing wizardry in getting just the right angle and shots that were needed, for his ability to laugh at my frequent outbreaks of anger, to change the color of my neck from red back to its pasty white, to bring me back to earth and back to reality after a long day in the yearbook office. Its to bad James wasn't here for the final production days of the yearbook as I'm sure I would have had to correct somemore of his contributions.

Thank you Ron (you are a G.D.S.) and all the rest of you, I'm sure you know who you are; Its been real

I hope this yearbook is what you all had expected, and if you don't like it; tough it can't be redone!!!

Its alright Tom I walk on the bottoms not on the tops, and Jo-ann enlarge you're disk!!!

*Yearbooks hold the past it seems,
What we were and future dreams.
Pictures freeze a frame in time,
memories here are yours and mine.*

*So look and learn of days gone by,
your sure to feel a tear dropped eye.
All these pictures, memories past,
Stockbridge stage and we the cast.*

*Friends we made will always be,
preserved throughout the ages.
Friends we made and never see;
preserved within these pages.*

*Remember well the Stockbridge Hall,
and all the faces we recall.
Remember well the best two years,
when Stockbridge showed us our true peers.*

*Thank-you yearbook and its crew,
Stockbridge shows its gratitude.
Thank-you yearbook with its past,
Pictured friends that last and last.*

*STOCKBRIDGE
SCHOOL OF
AGRICULTURE.
AMHERST,
MASS.*

1983 Supplement

During my recent vacation in Florida, I met a women who for the last twenty years has been counseling young college students. She made a statement which I found disturbing. She said, "The young people today, in general, lack the desire, the motivation, and the drive to excel; they seem only willing to do enough to get by at some lesser level". She asked me if I found this attitude prevalent among the young people with whom I come in contact. I was able to answer her quickly and honestly, "NO"! The vast majority of college students I am privileged to counsel in the Stockbridge School of Agriculture still exhibit a very healthy attitude towards their future in the world of work.

Your class has not given me any reason to change my opinion and I do not expect this opinion to change even after you graduate. Many of you are looking forward to owning your own business related to agriculture. Although it will not be easy, I am certain you will succeed for I do not believe that you have lost your Desire, your Motiviation, your Drive to excel in your chosen field of work.

An important fact which helps reinforce my belief is that within the many agriculturally related enterprises I meet with during the year I see many Stockbridge Alumni who are indeed excelling in their work.

I am confident that during the next few years in my travels, I will meet many of you who will be driving hard to excel and who will be successfull.

*John W. Denison,
Director,
Stockbridge School of Agriculture
and Assistant Dean, College of Food
and Natural Resources.*

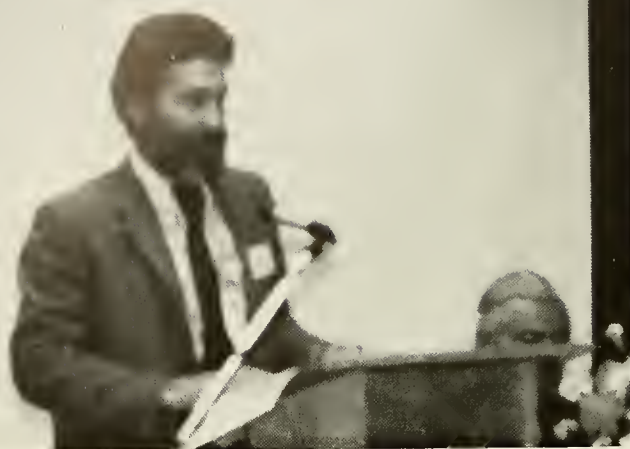

THANKS STOCKBRIDGE!!

I hear and read this phrase over and over, from former students. Graduates who have gone on for one, two, or even three degrees still call or write back to the school in appreciation of what it has done for them.

At your Progress Banquet, I was pleased to hear several seniors make it a point to mention how much the School has meant to them as students. I think all of you will be amazed at how much it is going to mean to you as alumni. The Stockbridge School of Agriculture has not only given you a fine education, it has given you the warm and comfortable feeling of belonging. And this warm and comfortable feeling will stay with you the rest of your lives. For you will always belong to the Stockbridge School.

Will you, someday, call and say, "Stockbridge has done so much for me, what can I do for Stockbridge?", as one graduate did? Will you write and say, "Thanks Stockbridge!" as many have done? I think you will, for as time goes by, more and more you will realize how much the Stockbridge philosophy is influencing your lives. I don't know exactly how Stockbridge has affected you. Only you know. I know that it has made a better person of me. THANKS STOCKBRIDGE!

*Iona Mae Reynolds
Associate Director*

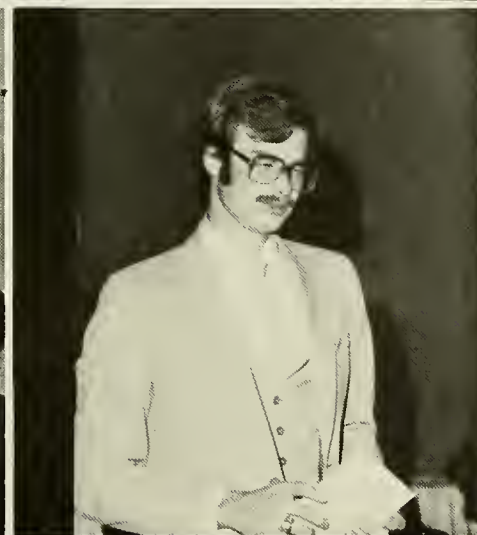

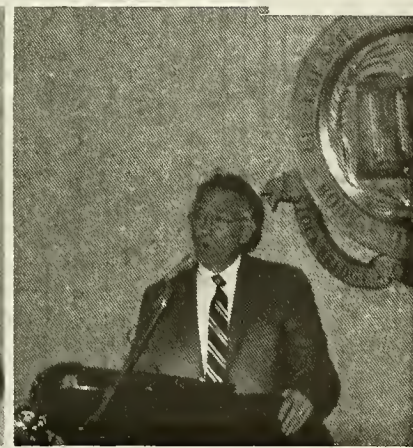

The class of 1983 dedicates this page to a man who has left a lasting impression upon us all. In his six years of service as the Faculty Advisor to the Student Senate, he has shed many words of wisdom. It is unfortunate Dr. Douglas Airhart will not be returning to Stockbridge following the 1983 school year.

We would like to thank him and want him to know that he is first rate and first in the hearts of his students.
